Benjamin Domb, MD, of the American Hip Institute is featured in ESPN's article on Pro Hockey free agent Patrick Kane

Patrick Kane's decision to undergo major hip surgery a month before free agency opened is a factor in keeping him as a free agent this June.

Dr. Benjamin Domb, founder and medical director of the American Hip Institute in Illinois, said hip resurfacing is an uncommon procedure in general, and even less common in athletes.

"The first key to successful rehabilitation is how the surgery is done. At American Hip Institute, we have developed a technique for minimally invasive hip resurfacing with computer guidance," Domb said. "This technique allows

for a faster recovery, ensures extremely accurate implant placement, and is designed to get professional athletes back to highly competitive sports."
