BENJAMIN G. DOMB, M.D.

Dr. Domb is a nationally recognized orthopedic surgeon specializing in sports medicine and arthroscopic surgery of the **hip, shoulder, and knee**. He is the founder and Chair of the American Hip Institute Research Foundation and has been rated amongst the Top Doctors in the USA by the NY Times, US News & World Report, and Castle Connolly.

Certifications

- Double-Board Certified Orthopedic Surgeon
- Fellow of the American Academy of Orthopedic Surgeons
- Fellow of the American Orthopedic Association
- ABIME Certified Examiner

Education and Training

- Princeton University
- Johns Hopkins School of Medicine
- Double fellowship-trained in Arthroscopy and Reconstruction

Dr. Domb's Work Comp Treatment Philosophy

“ We treat every injured worker the same way we treat our professional athletes. From initial consultation through the end of treatment,

we work aggressively to provide appropriate and timely care to return them back to work as efficiently and safely as possible and at the highest performance possible. We work closely with the employer to seek modified work when appropriate while recovering and provide clear and consistent communication to all parties involved in the progress of their treatment. My goal is to return the employee back to pre-injury quality of life, activities, and work.

”

Workers' Compensation Field Nurse Case Manager

“ I am a field nurse case manager working with injured employees that sustain injuries in the workplace. In a recent case that I was working on, the injured employee sought treatment for quite sometime before conservative management had failed which resulted in a referral to Dr. Domb. Dr. Domb evaluated the injured employee in a timely manner and determined surgery was necessary. Surgery was scheduled promptly where Dr. Domb performed a very complex surgical procedure with the result being an early discharge from physical therapy and a return full duty work months ahead of schedule. The injured employee reported satisfaction as well, and her employer is happy to have her back at work. ”

- Laura L.

Workers' Compensation Patient

“ I am a patient of Dr. Domb. He operated on my hip and it only took 4 months for me to fully recover. He is a fantastic doctor he is very patient, caring, respectful, and devoted to his patients. I am very grateful for all that Dr. Domb has done for my quality of life. ”

- Guadalupe H.

AJAY C. LALL, M.D., M.S.

Dr. Lall is a board certified, dual fellowship-trained orthopedic surgeon specializing in sports medicine, robotic joint replacement and treatment of injuries around the hip, knee, shoulder, elbow, and ankle. He is the Director of Education and Co-Fellowship Director at the American Hip Institute Research Foundation. An avid clinical researcher, Dr. Lall has produced hundreds of presentations and publications at international academic meetings and within top peer-reviewed journals.

Certifications

- Board Certified Orthopedic Surgeon
- Fellow of the American Academy of Orthopedic Surgeons

Education and Training

- Case Western Reserve University
- Albert Einstein College of Medicine
- James Andrews Sports Medicine & Orthopedic Center (Birmingham, AL): Sports Medicine Fellowship
- American Hip Institute hip arthroscopy and robotic hip replacement fellowship

Dr. Lall's Work Comp Treatment Philosophy

“ As a dual fellowship-trained orthopedic specialist, I have been taught to treat the injured worker like a professional athlete. Full recovery from injury, and return to activity or sport, is my number one priority. In my mind, industrial athletes, like professionals, requires the highest level of care possible. Accurate diagnostics, evidence-based management, and expert level of surgical experience is my standard of care. Our team works seamlessly with patients, employers and all appropriate parties involved providing timely visits, direct lines of communication, and same-day documentation. We look forward to helping those in need, and sincerely take pride in being the best at what we do. ”

Workers' Compensation Patients

“ I hurt my hip at work. I fell while giving a client a shower and I got it checked out by Dr. Lall. I was told that I had a labral tear in my hip. I had surgery and I'm glad I did as the pain from my injury was relieved almost immediately. When walking and turning. Dr. Lall did an amazing job and I thank him very much. Everyone at the office has been very helpful. I highly recommend American Hip Institute to everyone that I know that has a problem requiring an orthopedic expert. ”

- Rosiella C

“ I fell and hurt my hip at work. I was experiencing 10/10 pain. We tried physical therapy for a while with no relief so I went to see Dr. Lall. After consultation and additional tests, Dr. Lall identified that I would benefit greatly from having surgery to address my pain. Ever since surgery, the pain is gone. Everything went really well and I and very happy with the outcome as I am back to work and 100% pain free. ”
