Kerlan-Jobe Meeting: Celebrating the 50th Anniversary of the Tommy John Procedure

AMERICAN HIP INSTITUTE
& ORTHOPEDIC SPECIALISTS

Dr. Benjamin Domb of the American Hip Institute had the honor of presenting

at the annual Kerlan-Jobe Meeting on “Hip Instability in Female Athletes” with Dr. ElAttrache presiding as Guest Professor. 50 years ago this year, Dr. Domb’s mentor, Dr. Frank Jobe, invented a procedure to fix a torn ligament in big league pitcher Tommy John. That procedure became one of the most successful and famous procedures in modern sports medicine, and to this day is referred to as “the Tommy John procedure”. Dr. Domb had the honor of training with Dr. Jobe and his successor, Dr. Neal ElAttrache, at the Kerlan-Jobe Clinic, along with the pleasure of meeting Tommy John himself.

Dr. Benjamin Domb Lectures at the Association of Bone and Joint Surgeons Meeting

Dr. Benjamin Domb of the American Hip Institute had the honor of lecturing at the Association of Bone and Joint Surgeons Annual Meeting in Montreal on “How Robots Can Help Humans” — a study recently completed by the American Hip Institute Research Foundation demonstrating, for the first time in literature, the long-term outcomes of robotic hip replacement. It was an honor to attend and meet Sophie Trudeau, the 1st Lady of Canada and keynote speaker. Mrs. Trudeau addressed the impact of mental health on surgical outcomes.

A Runner’s Guide to Healthy Hips

This guide is designed to empower runners of all levels to prioritize proactive hip care so they can keep logging (healthy) miles.
